When You're Ready (WYR)

The When You're Ready Project was started in 2014, following highly publicized rape and sexual assault allegations that dominated headlines. It was inspired by the women who came forward and bravely told their stories. They help survivors by providing an online platform for sharing and reading stories from survivors of sexual violence.

The Clothesline Project

The Clothesline Project originated in Hyannis, Massachusetts in 1990 and is made up of t-shirts created by survivors of violence, or created in honor of someone who has experienced violence. Survivors can create their own shirt telling their story.
